Profile Summary

Seeking opportunities in **Cyber Security, Machine Learning** that foster **professional development**, provide **challenging experiences**, and support **personal growth** through solving **real-world problems**. Proficient in Python, ML, AI. Gained working experience in some real life projects. Currently I am gaining further knowledge and skills.

Academic Records

Haldia Institute of Technology, Haldia (CGPA: 8.128 till 5th sem) <i>Bachelor of Technology in Computer Science and Engineering</i>	2023 – 2027 <i>Haldia, West Bengal</i>
Contai Public School (Percentage: 79.75) <i>Indian School Certificate – (PCMB)</i>	2021 – 2023 <i>Contai, West Bengal</i>
Contai Public School (Percentage: 89.8) <i>Indian Certificate of Secondary Education</i>	2021 <i>Contai, West Bengal</i>

Experience

Computer Society of India (CSI) <i>Core Member</i>	Jul 2024 – Jul 2025 <i>Haldia Institute of Technology</i>
– Actively participated in organizing technical events and workshops. – Collaborated with team members to promote technical learning and student engagement.	

Projects

Iris Species Predictor View <i>Python, ML algorithm, streamlit, pickle</i>	January 2026
– Developed and implemented a real-time Iris flower petal species detection using Logistic Regression and hosted with streamlit and python pickle.	
Real Estate valuation Prediction GitHub <i>Python, Regression ML</i>	February 2026
– Developed and implemented a Regression Machine Learning Model which predicts the price of any real estate based on the training and test dataset. Prepared a Report based on this.	
AI Phishing Email Detector GitHub <i>AI, NLP, Phishing, Threats, Flask, FastAPI</i>	April 2026 - Present
– Designing and implementing an NLP-based phishing email detection system using text classification and threat analysis techniques, exposed via a REST API.	
Personal Python Projects GitHub <i>Python</i>	2024 – Present
– Developed console-based Python applications including Hello Calculator, Number Guessing Game, Contact Book, Weather Data Viewer (JSON), and Typing Speed Tester using core Python concepts and standard libraries. <code>time</code>, <code>json</code>.	

Technical Skills

Programming Languages: Python, C, Java, HTML/CSS

Databases: MySQL, MongoDB, PostgreSQL

Developer Tools: VS Code

Libraries/Frameworks: NumPy, Pandas, scikit-learn, seaborn, TensorFlow, XGBoost, GitHub

Additional Skills: Artificial Intelligence (AI), Machine Learning (ML), Deep Learning (DL), Natural Language Processing (NLP), Generative AI (GenAI), Data Structures and Algorithms (DSA), Object Oriented Programming (OOP)

Trainings

Indian School of Ethical Hacking (In House Internship Training)

January 2026 – February 2026

Advanced Python with Machine Learning and Cyber Security

- Trained in Machine Learning and basics of Deep Learning.
- Trained in basics of Cyber Security and analysis.

AI for Everyone - Certified AI NATIVE

Mar 2026 – May 2026

AI for Engineers Arena

- Built an AI-powered Email Phishing Detector to identify potentially malicious emails in real time using machine learning techniques.
- Implemented phishing detection with Gmail API integration to analyze emails and assist in identifying suspicious content.
